The **Smart Home Bundle** will support you to make and receive calls from your main business telephone number allowing you to conduct day to day operations from your home. We want to help with an offer that can provide some relief to your businesses during the Covid-19 pandemic but still ensure you are productive and secure.

This packaged system will help businesses achieve more and communicate better during these stressful times. State-of-the-Art Cloud Phone System at the touch of a finger. For **\$325/month** we can transform your business and work life during this trying time and have your Phone System up and working on the TelradCLOUD in under 2 hours. No more worrying about forwarding calls to your cell phone or just missing calls due to working from home. Or not being able to reach your support staff or clients. This eliminates expensive phone lines and other costs. We have discounted our platform by over 40% to help small businesses move forward with the technology they need but at a highly discounted rate.
